

Pre-Application Early Site Permit Public Meeting for the Clinton Site

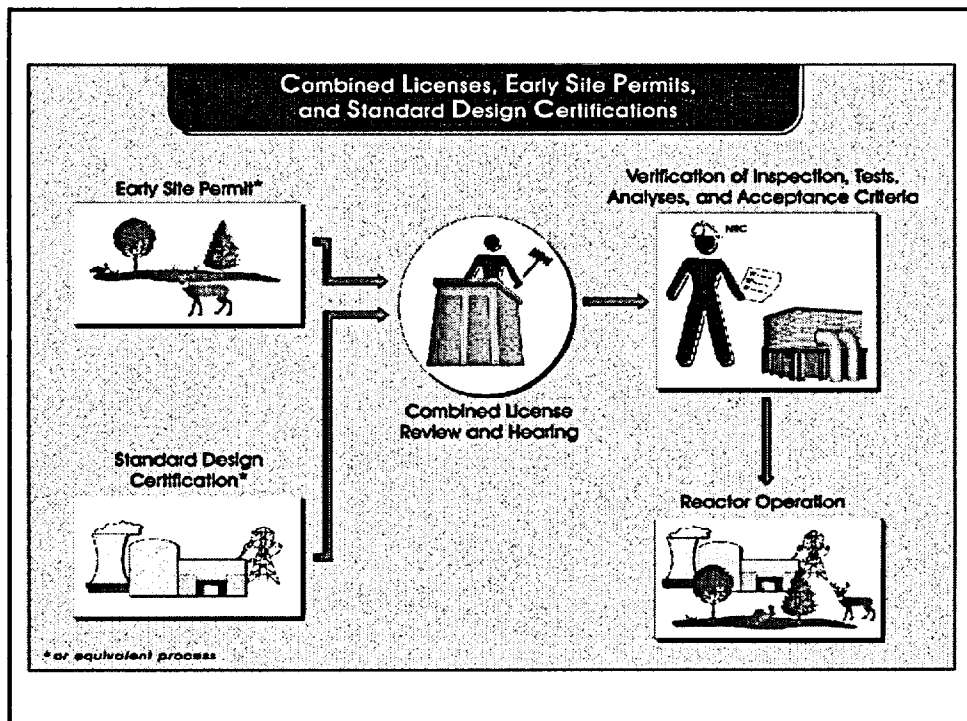

**Marsha Gamberoni, Deputy Director
New Reactor Licensing Project Office
U.S. Nuclear Regulatory Commission
March 20, 2003**

Who is the U.S. Nuclear Regulatory Commission?

- Independent agency
- Experienced regulator
- Mission: To protect public health and safety, promote common defense and security, and protect the environment
- Regulate commercial nuclear reactor activities

How will the NRC Carry Out Its Role?

- Review all information objectively
- Make informed decisions based on the facts
- Maintain an open public process

Early Site Permits

Nanette Gilles
New Reactor Licensing Project Office

Thomas J. Kenyon
License Renewal and Environmental Impacts Program

7

Introduction

- Discuss early site permit review process
- Discuss schedule
- Questions and answers

- Discuss how to participate in process
- Questions and answers

8

What is an Early Site Permit?

An NRC decision that ensures that the proposed site is suitable for construction and operation of a nuclear power plant.

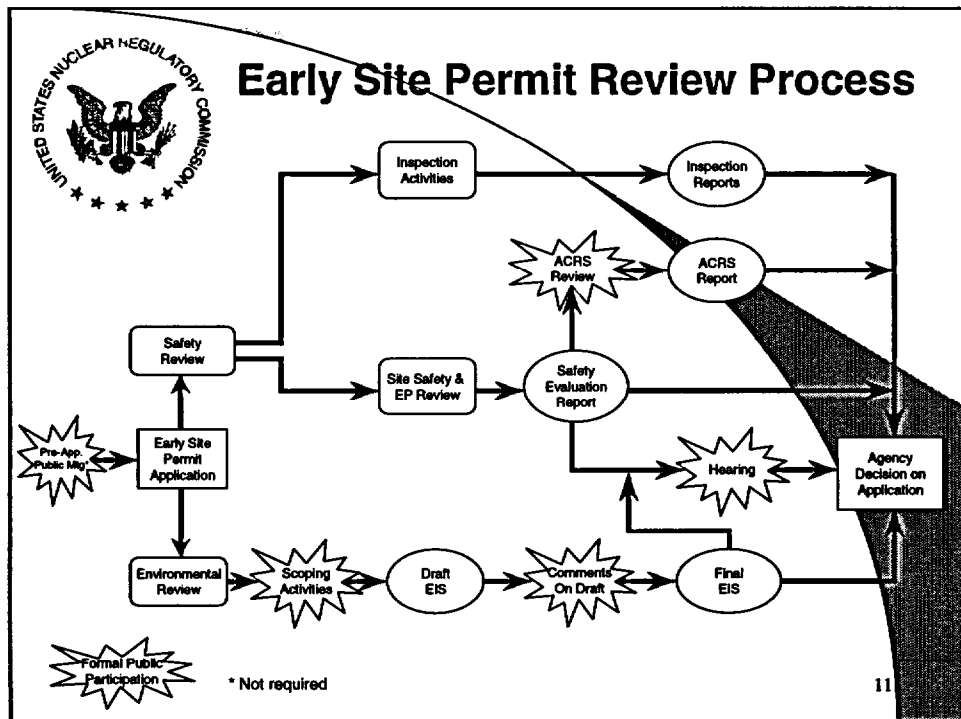

9

Why Does an Applicant Want an ESP?

- Allows an applicant to “bank” a site
- Reduces licensing uncertainty
- Resolves siting issues before construction

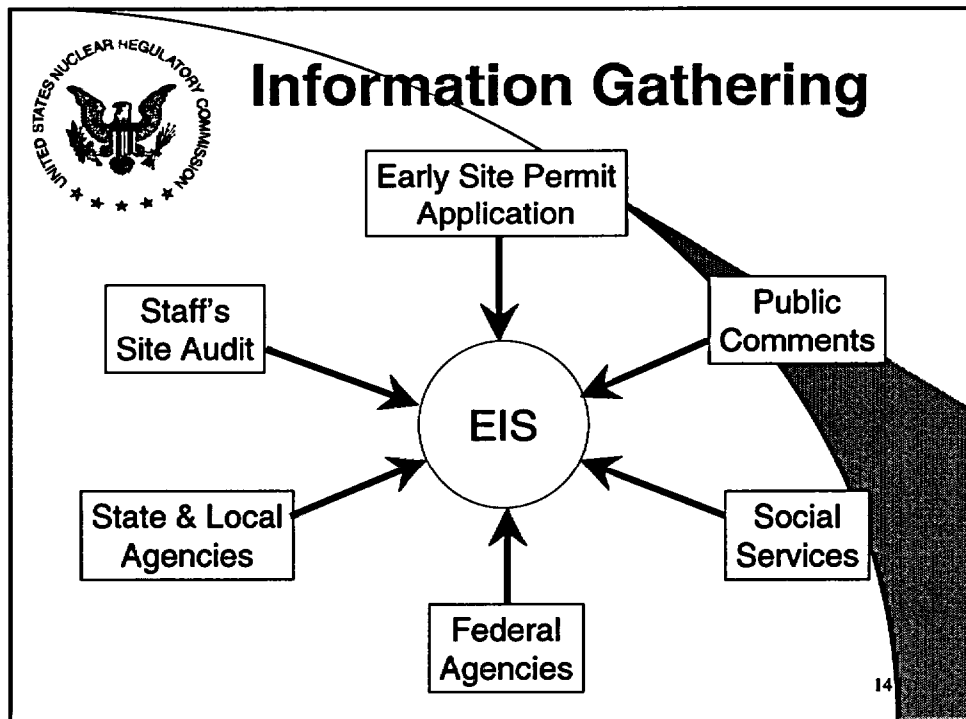

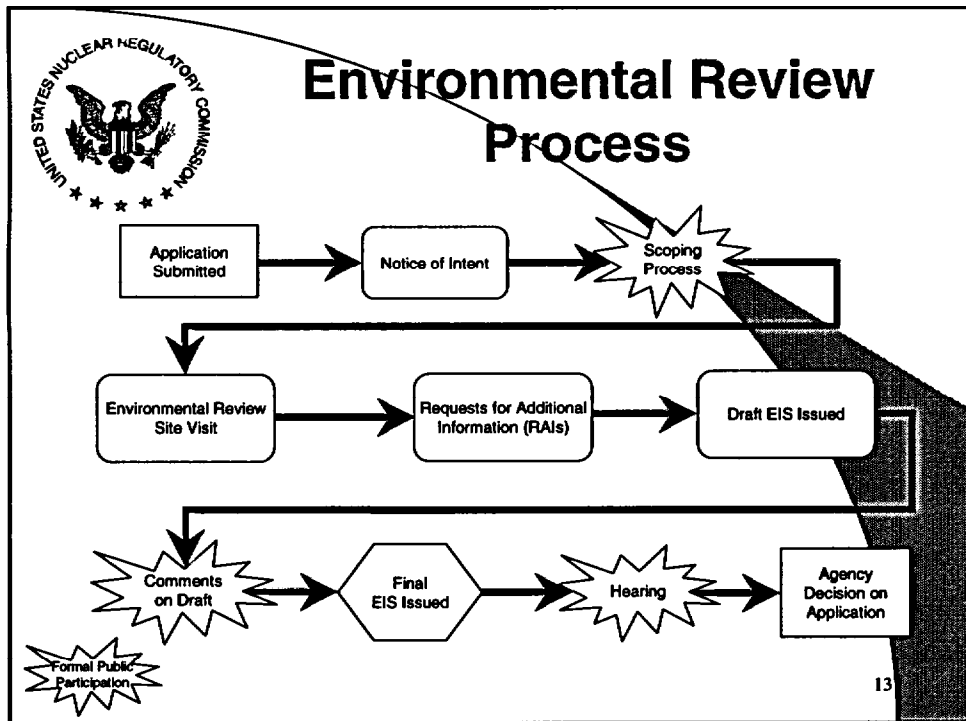

10

National Environmental Policy Act

- NEPA requires Federal agencies to use a systematic approach to consider environmental impacts
- An Environmental Impact Statement (EIS) is required for major Federal actions significantly affecting the quality of the human environment
- Issuing early site permit is considered major Federal action

12

Team Expertise

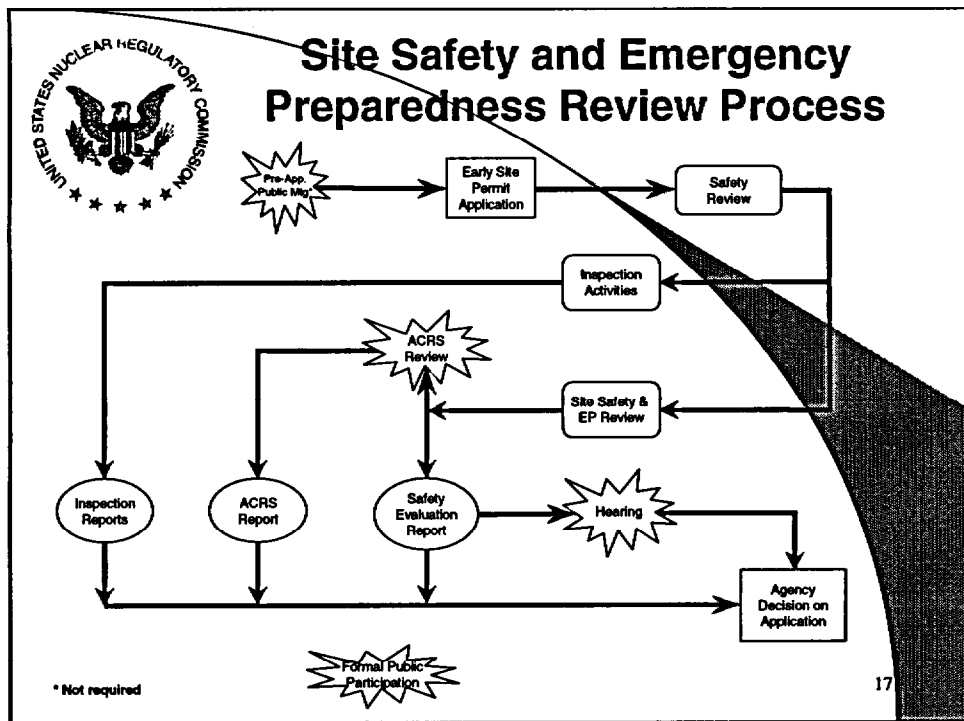

15

Issues Not Considered In ESP Environmental Review

- Need for power
- Cost of power
- Spent fuel disposal (except for transportation)

16

Site Safety and Emergency Preparedness Review Process (continued)

- **Site Safety Review**
 - Seismology
 - Geology
 - Hydrology
 - Meteorology
 - Geography
 - Demography (population distribution)
 - Site hazards evaluation

19

Site Safety and Emergency Preparedness Review Process (continued)

- **Emergency Preparedness Review**
 - Site visit
 - Physical impediments
 - Population distribution
 - Transportation routes
 - Proposed emergency plan or other information
 - Federal Emergency Management Agency (FEMA)

20

Application Schedule

- | | | |
|--------------|-------------|----------------|
| ➤ Clinton | Illinois | June 2003 |
| ➤ Grand Gulf | Mississippi | June 2003 |
| ➤ North Anna | Virginia | September 2003 |

Agency decision expected 33 months after application received

21

Pre-Application Early Site Permit Public Meeting for the Clinton Site

March 20, 2003

Public Involvement

- Pre-application public meeting at site
- Public interaction during environmental review
 - Comment periods
 - Public meetings
- Technical meetings on site safety and emergency planning

23

Public Involvement (continued)

- Atomic Safety Licensing Board Hearing
 - Opportunity to participate provided
- Advisory Committee on Reactor Safeguards
 - Independent review
 - Advises Commission
 - Public meetings

24

Where Can I Find the Results?

- Safety Evaluation Report
- Environmental Impact Statement
- Meeting summaries
- Inspection reports

25

Points of Contact

- Agency points of contact:

Nanette Gilles, Site Safety Project Manager
1 (800) 368-5642, extension 1180

Thomas Kenyon, Environmental Project Manager
1 (800) 368-5642, extension 1120

- Documents can be viewed at NRC's website
(www.nrc.gov)
